DESCRIPTION

Scala Wall Panel is made from compressed felt fabric on a molded sound-absorbing polyester core. The design of the sound-absorbent Scala is not only developed for visual reasons, but primarily to contribute to a softer soundscape. Wall tiles are available in an assortment of sizes, both portrait and or landscape orientations and are hung using metal fittings concealed behind the tile.

PLEASE NOTE

We recommend having a small gap between joins to keep panels in line. All horizontal and vertical orientations should use a gap of .75" - 2" (20mm - 50mm).

Scala Panels CANNOT be cut in the field.

Improved Sound Absorption: Scala Wall Tile is ideal for high-frequency absorption and achieves an NRC 0.80 rating.

Designed for the Environment: Scala is manufactured on the basis of technical, environmental and production ethical requirements. There are no emissions to air, water or land during the production of Scala. The sound-absorbent core of Scala contains recycled materials. Scala Screen is recyclable.

SCALA WALL PANEL CARE

Basic Care: To maintain the color and appearance of the fabric covering it should be vacuum cleaned regularly with a clean, soft, brush nozzle.

Polyester Stain Removal:

- Use colorless towel or a washcloth to absorb as much as possible of still-moist stain. Dried stains should be vacuumed.
- Wet the stain sparingly with a white pure cotton cloth, warm water and possibly a little pH-neutral cleaner.
- Dab the area with a dry cloth or colorless paper towel to absorb the moisture and stain.
- Repeat this process until the stain is gone.
- On the final repetition, use only clean water with no detergent added.
- Finish by dabbing

Wool Stain Removal:

Dab or wipe gently with a damp cloth.
