AIRFLAKE

DESIGNER Stefan Borselius

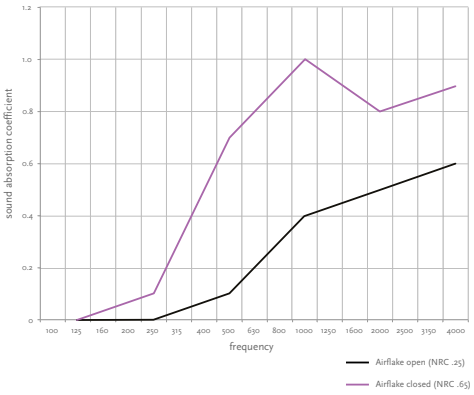
CONTENT
Core: 100% Molded Polyester Felt
Cover: 100% Polyester Felt (Air Series) or 100% NZ Wool (Focus & Mélange)

THICKNESS
Airflake: 0.6”
Airflake XL: 0.6”

DIMENSIONS
Airflake: 15.75” (h) x 13.5” (w)
Airflake XL: 27.5” (h) x 23.6” (w)

FLAMMABILITY Inquire

ACOUSTIC NRC: 0.25 - 0.65 (open/closed)



APPLICATION Wall, Ceiling

DESCRIPTION Airflake and Airflake XL are produced from molded polyester felt fiber that is formed into a variety of open or closed hexagonal ‘snowflake’ shapes that are assembled together using small plastic clips. Airflake may be mounted to a ceiling or wall using a straight rail.

BENEFITS

Designed for the Environment: Airflake is manufactured on the basis of technical, environmental and production ethical requirements. There are no emissions to air, water or land during the production of Airflake. The sound-absorbent core of Airflake contains recycled materials. Airflake is recyclable.

Installation: Airbloom may be mounted to the ceiling or wall with a straight rail in two lengths, 59” or 78.75. Those rails can be joined or cut on site. Modules hook into one another using small plastic clips creating screen partitions.

Improved Sound Absorption: Airflake is ideal for high frequency absorption and achieves an NRC of 0.25 - 0.65 depending on module type used

Accessories Provided: Drop ceiling brackets to mount Airflake directly to a drop ceiling. A Wire Kit which includes (4) 118” wires, (4) wire locks and hardware to hang the rail a distance from the ceiling. A roller is also available allowing the Airflake modules roll along the rail, used in lieu of attachment clips.

General Care: To preserve the fabric color and appearance of the fabric, Air series modules should be vacuumed regularly with a soft nozzle.

Stain Removal: Use uncolored paper towels or cloths to soak up as much of the stain as possible. Dried stains should be vacuumed. Moisten the stain lightly with a clean white cotton cloth, lukewarm water, and possibly a small amount of pH-neutral detergent. Press a dry cloth or uncolored paper towel against the fabric so that moisture and dirt are absorbed. Repeat process until the stain is gone. Be sure to use clean water without detergent for the final treatment.
