APPLICATION Wall, Vertical surfaces

DESCRIPTION Brix by Fraster are customizable, self-sticking wall tiles designed to cover a little, or a lot of space! When installed, Brix provides striking beauty and absorbs unwanted noise. Start from one of our 13 design templates, or create your own Brix, piece by peace!

Each of the cut felt shapes come with a recycled polyester felt backing and are 7/16" thick, combined. All shape sizes are customizable, so make them as large, or small as you want. All pieces are supplied with double-sided tape capable of adhering to most common surfaces for mounting purposes.

Environmental

ADDITIONAL INFORMATION

Installation

The use of natural wool with a PET substrate combined with a peel and stick backing allows for quick installation. The product is easily designed online using the room size and design calculator tool on the website. Users easily enter wall dimensions and the design selected is calculated automatically.

Custom

Customize your Brix shapes colors and custom fabrication which includes cutting, laminating, stitching, embroidery and installation services are available.

Variation

Wool felt is a natural material that can vary between pieces due to its makeup. Color is indicative as it is impossible to assure consistency as the dyes may absorb differently from one rug to the next. Color matching is therefore not guaranteed on shipments. Variation will be more pronounced when customized material is used.

Maintenance

If stains occur, spot clean with a mild soap and warm water. Do not rub as this can damage the felt and change the surface appearance. Dab the rug gently and repeat as needed to remove the stain.
