APPLICATION

DESCRIPTION

Floor

Design your own rug or start from our standard patterns and then select from the many colors available. Company logos can be embedded in the carpet and edge stitching assures dimensional stability. Slip free backing is applied to all rugs for secure safe installation. EVA backing may be applied to single part rugs only.

Custom: Custom colors and custom fabrication which includes cutting, laminating, stitching, embroidery and installation services are available.

Variation: Wool felt is a natural material that can vary between pieces due to its makeup. Color is indicative as it is impossible to assure consistency as the dyes may absorb differently from one rug to the next. Color matching is therefore not guaranteed on shipments. Variation will be more pronounced when customized material is used.

Maintenance: We recommend vacuuming your rug occasionally to remove dust and dirt that may have accumulated. If stains occur, spot clean with a mild soap and warm water. Do not rub as this can damage the felt and change the surface appearance. Dab the rug gently and repeat as needed to remove the stain.

Please Note: Because of the way wool is structured there may be a variance of 1.5% +/- on both the length and the width of rugs.

Designed for the Environment:
